

Part - RPT2AF/RPT2AC Compact - Lightweight

Novatek's versatile, high production **Roto Peen/ Hand-Held Scarifiers** are ideal for removing coatings from both steel and concrete surfaces. Quick change hubs with an assortment of abrasives enable rapid removal of mastics, alkyds to epoxy coatings while containing hazardous or non-hazardous dust.

Features

- Available in 2" or 4" models
- Offered with 3M Roto Peen flaps or carbon steel cutters
- Lightweight but powerful 1.2 hp air motor
- Rollers allow for use on curved surfaces
- Integrated vacuum shroud
- Compact design for tighter access
- Quick change hubs and abrasives
- Available in kit form
- 1.2 hp motor

Part - RPT4AF/RPT4AC Wide Cutting Path

Benefits

- 2" model is lighter and ideal for vertical and overhead use
- 4" model is best for horizontal surfaces
- High production rates
- Standard 1.5" vacuum port allows for dustless operation
- Converts in minutes to accept abrasive hubs for coating and material removal from concrete or steel
- Complies with OSHA and EPA standards easily when matched with our HEPA vacuums
- Replicates shot blast finish when equipped w/Roto Peen Flaps

**All RPT tools are equipped with 1/4" NPT air inlet.*

Part - RPT2EF/RPT2EC Compact

Features

- 2" or 4" cutting path
- Powerful 1200 watt electric motor
- Dust-free when used with VSE-HEPA vacuum systems
- Integrated rollers
- Quick change hubs and abrasives
- Works up to 1.5" from walls
- Converts from Roto Peen flaps to cutter hubs in minutes (4" electric with cutters not available)

Benefits

- High production on decks, floors and walls
- Operates on standard 115 volt or 230 volt power
- Perfect for heavy coating removal
- High production on flat surfaces
- Works on curved surfaces and pipes
- Duplicates shot blast finish when equipped with Roto Peen flaps
- Complies with OSHA and EPA standards easily when matched with our HEPA vacuums

Part - RPT4EF Wide Cutting Path

**Electric RPT are also available equipped with 230 volt motor 50/60 Hz.*

Roto Peen/Hand-Held Scarifier Kits

RPT Kits provide everything you need for a wide variety of applications. From concrete scarifying to light material removal, the RPT Kit will have you covered.

Includes

- Your choice of 2" or 4" Air or 2" Electric tool loaded with Roto Peen hub and "Type C" flaps
 - Additional cutter hub loaded with carbon steel "star" cutters
 - Rugged tool bag
 - Applicable wrenches
 - Gear oil, (air model only)
- (4" Electric Roto Peen unavailable in kit form)

**RPT also available in 230 volt motor 50/60 Hz.*

Part - RPTMRPC/RPTM212 (6 Pack of Flaps)

Roto Peen Flaps

Duplicates shot blast finish

Applications/Features

- Coatings removal from steel or concrete, 20 to 25 mil removal
- Rust and scale removal
- Profiling and stress relief on steel
- Used to attain SSPC-SP 11 level of surface preparation
- Lightweight hubs dramatically decreases tool weight compared to cutter hub
- Duplicates a blasting profile
- Achieves 2 to 3 mil profile

Applications/Features

- Aggressive coatings removal and surface prep
- Mid-weight cutter bundle
- Rust and scale removal
- Heavy coatings removal, epoxy non skid
- Concrete preparation and scarifying
- Plaster and stucco removal
- Recommended for 25+mil removal

Part - RPTS210 (Star Cutter 80 Pack)

Part - RPTS200 Carbon Steel "Star" Cutters

Our most aggressive cutter

Applications/Features

- Mid-level coatings removal, (Less aggressive than "Stars")
- Mid-weight cutter bundle
- Rust and scale removal
- Light concrete prep. and coatings removal
- Heavy coatings removal, epoxy non skid
- Concrete preparation and light resurfacing
- Plaster and stucco removal
- Recommended for 25+mil removal

Part - RPTR210 (Beam Cutter 60 Pack)

Part - RPTR200 Carbon Steel "Beam" Cutters

Less aggressive cutter offers a long-life

Part - RPTH276 / RPTH476

- Roto Peen hub complete with pins 2" & 4"

Part - RPTU278 / RPTU478

- Cutter hub replacement pins 2" & 4"

Part - RPTH278 / RPTH478

- Star hub complete with pins 2" & 4"

Novatek offers a range of **Pneumatic** and **Electric HEPA Vacuums**, specifically designed to work with our VSE product line. Choose between backpack, floor, or bulk collection units. Engineered for the recovery of lead, asbestos, mold, and other hazardous or non-hazardous materials.

Applications

- Use in difficult to access areas
- Perfect for attaching to scaffolding or boom trucks
- Haz Mat removal and recovery

Features & Benefits

- Your choice of powerful pneumatic or electric models
- Ultimate portability
- Perfectly matched to our VSE power tools
- 5 gallon steel recovery tank
- 4 stage filtration assures long HEPA life
- Can be converted from backpack to floor vac in seconds
- Individually tested and certified HEPA filters
- Air filter/dryer standard (pneumatic model only)
- Includes 6' x 1.5" of crush proof vacuum hose
- Integrated live air inlet with shutoff for connecting power tools

Air Backpack model with RotoPeen tool removing rust from a steel structure.
